Subject: RE: Safety review of select groundwater wells

;;;
Dave,

We have discussed this in the past but I wanted to formally close the loop on this. As of December 21, 2016, the safety concerns associated with the identified wells at the Yerington site have been adequately addressed and all monitoring wells are once again accessible.

Thanks,

Jack Oman

Subject: Safety review of select groundwater wells

Hello Dave:

Please find an attached letter from Jack Oman outlining a recent safety review of select groundwater monitoring wells at the Yerington Site. I have also attached a well location map and a table outlining pertinent well information.

Please contact Jack if you need any additional information at 657-529-4581.

Thank you,

Dan
